

**2025 Japan Foundation New York
Grant for U.S.-Japan Community Grassroots Exchange Program
Guidelines**

I. Description

Japan Foundation (JF) recognizes the value of cultural exchange on the grassroots level to deepen mutual understanding between the U.S. and Japan. This program aims to support the creation or/and expansion of Japan-themed programming and activities for local communities and beyond.

Proposed programming must be Japan-related; however, the types of events may vary (e.g., in-person workshop, online lecture, etc.) as well as the topics (e.g. culture, business, professional development, Japanese Studies etc. excluding Japanese Language).

Additionally, JF values the sustainability and development of programming beyond JF support. A project that includes the establishment of a new position to design and implement the Japan-related programming through this grant program will be given higher priority.

Japanese Studies departments at U.S. universities and U. S. based nonprofit organizations with 501(c) (3) status that promote grassroots cultural exchange are welcome to apply.

II. Requirements

Projects are required to include the following:

- Minimum of 10 or more events, such as a series of lectures, seminars, workshops, or activities that support dialogue and networking during the project period;
- Project length can be no longer than twelve (12) months;
- Projects must begin between September 1, 2025, to March 31, 2026. Preparation for the events may be included in the grant period;
- A minimum of twenty percent (20%) of the total project budget must be secured from non-JF sources such as the applying institution, a collaborating institution, and/or other sources.

III. Priorities

Projects with one or more of the following qualities will be prioritized:

- Demonstration of impact on targeted communities and tangible outcomes;
- Demonstration of fresh and innovative outreach activities;
- Sustainability plan that is clearly articulated and extends well after JF support:

- Attention towards underserved areas of the Midwest, South, and Mountain states as well as non-traditional audiences that have not been previously exposed to Japanese culture and topics;
- Projects proposed by or involving collaboration with a Historically Black College or University (HBCU) and/or Community College;
- Projects that collaborate with larger community in the region (K-12, universities, museums, businesses, Japan-related organizations, organization/institution in Japan etc.).

Proposals that are the same or very similar to previously supported projects will be given a lower priority. Additionally, ongoing projects will be given a lower priority unless a new aspect to the programming is demonstrated, such as expanding audience reach or increasing offerings.
